## STEP 1 — PRINTING

### 1. Print all 4 grid sheets (A1, A2, B1, B2) at exactly 100% scale.

*Do NOT select 'Fit to Page' or 'Scale to Fit' — this will distort the grid.*

### 2. Verify the 10×10mm calibration square on sheet A1 measures exactly 10×10mm.

*Use a ruler. If it doesn't measure correctly your printer has scaled the output.*

## STEP 2 — ASSEMBLING THE SHEETS

### 1. Place all sheets face-up on a dark coloured surface.

*Dark background improves contrast for the photograph.*

### 2. To join A1 + A2 side by side:

- Fold Sheet A1 back along its RED dashed line (right edge).
- Slide A1's folded edge over Sheet A2 — A2 stays completely flat.
- Align the RED FOLD bullseye on A1 with the FOLD bullseye on A2.
- Tape the join from behind, then unfold A1 flat.

### 3. To join B1 + B2, repeat the same process.

### 4. To join the B row on top of the A row:

- Fold Sheet B1 back along its RED dashed line (bottom edge).
- Slide B1's folded edge over Sheet A1 — A1 stays flat.
- Align the RED FOLD bullseye, tape, then unfold flat.
- Repeat for B2 over A2.

*Only ONE sheet folds per join. The other sheet always stays flat.*

## STEP 3 — LAYING OUT YOUR TOOLS

### 1. Lay all tools flat on the assembled grid.

### 2. Keep all bullseye markers clear — do not place tools over them.

The dotted circle marks the exclusion zone.

Keep this area clear of tools at all times.

### 3. Avoid overlapping tools — each tool needs a clear outline.

## STEP 4 — PHOTOGRAPHING YOUR LAYOUT

### 1. Hold your phone or camera directly overhead — parallel to the grid.

*Any angle will distort the tool shapes. Shoot from as high as possible.*

### 2. Use good overhead lighting. Avoid flash — it creates harsh shadows.

### 3. Make sure all 6 bullseye markers are clearly visible in the photo.

*If a bullseye is obscured, reposition the nearby tool slightly.*

### 4. Take the photo in the highest resolution your device allows.

## STEP 5 — SENDING YOUR ORDER

### 1. Email your photo(s) to: [orders@cutform.com.au](mailto:orders@cutform.com.au)

### 2. Include your name, contact number and foam type preference.

*Not sure which foam? See [cutform.com.au/materials](http://cutform.com.au/materials) for options.*

### 3. We will confirm your order and provide a quote within 1 business day.
